

## **NEW ON FOUNDIT: Engines, gearboxes and now Dismantled Tractors Live and Online!**

### **RECENT INTRODUCTIONS**

Recent introductions to Foundit have been engines and gearboxes, quickly followed by Dismantled Tractors.

To look these up on Foundit, use the Parts Search page just as you would when searching for any other part.

Using the first three letters of the brand name eg. ISU, MAS, CAS, MCC as applicable, try MAS 148 ENG. You'll see who has them, plus drive and motive power. For example, MAS 148 ENG 2D is a 2-wheel drive model, diesel powered.

The Dealer has room to provide you with additional information – "burnt cab" etc.

Tractors are broken down into ten parts:

ENG = Engine	GBX = Gearbox
DIF = Differential	RAA = Rear Axle Assembly
FAA = Front Axle Assembly	SBX = Steering System
HYD = Hydraulics	ELE = Electronics
PNL = Panels	CAB = Cab

This exciting new addition to Foundit has been developed and tested with help from:
