

www.foundit.co.nz - Your Reliable Source For Finding Any Part

Buying on Foundit is one half of the equation... Selling is the other!

Showing old stock for sale as **NEG** gets attention and money in the bank. Showing ANY stock can also be a winner because what's common to your firm may not even be in stock at another!

It doesn't matter how small your firm, get your stock list on Foundit.

"It's too messy and needs a cleanup, and we just don't have the time" yeah, I know!

JUST SEND IT AS IS. Let us look at it and extract what we need. We will dispose of the rest and promise, we won't laugh at you.

Stock files can be attached and sent as emails. You may also use the **Send Stock File** facility on Foundit, or have your tech phone me on 0800 368 6348 and we can set up an automatic stock file update say weekly, fortnightly, daily even.

It's easy....but needs YOUR input.

While the arrival of Fleetparts on Foundit is a plus for truck dealers, an Australian backup for truck parts, there is another dimension:-

With over 50 outlets on the East Coast of Australia, diverse in franchises, it is highly likely that we will soon have Aussie access to other parts areas, tractors, machinery etc.

For many in Parts it will be a comfort to have backup on our doorstep once more.

Keep you posted on this one...

Foundit Briefs

1. Farmers and contractors are asking for reconditioned engines, pumps etc on the Foundit Wanted list. Any suggestions as to where these queries be directed would be appreciated.....chances to make sales.
