

**www.foundit.co.nz - Your Reliable Source For Finding Any Part**

***With over 3 million parts listed and 5000 part searches every month, we're busy!***

### **New Administrator for Foundit**

Hi, my name is Belinda Le Lievre and I am the new administrator for Foundit. One of my first tasks will be contacting you and checking the information that we have on file is up to date. So expect a call from us soon! I also look forward to getting out and meeting with you all in the coming months.

I will also be endeavouring to get the Foundit newsletter out on a regular basis (yes it has been a while since our last newsletter), so please do let me know if there is any article of interest you would like covered in one of our newsletters.

### **Wanted List**

Looking for a part you can't source? Why not try the Foundit Wanted List? *Did you know that you can also upload up to three photographs to go with the item you are searching for?* Items posted here remain for 10 days before they are deleted by the Foundit system. Alternatively, if you happen to make a sale via the Wanted List, please do let us know so that we can remove the request from the list.

### **Referrals**

Is there a company you deal with regularly whose stock you would like to see up on Foundit? If so please do let us know, via the Referrals tab on foundit.co.nz

### **Not already joined up with Foundit?**

If you are reading this newsletter and don't have your stock on Foundit, phone us on 0800 Foundit (0800 368 6348). Within a few minutes of talking with us, we can have you set up with a trial logon / password and tuition.

### **Loading Stock**

Here are some of the ways to upload your stock to Foundit:

- **FTP (File Transfer Protocol):** If your computer system allows FTP and you wish to send your stock file this way please let us know and Foundit programmers can set it up to process your stock updates automatically.
- **Upload via Foundit Website** – Click on 'send stock file' to upload a stock list. Alternatively you can use the 'Update your Stock' function to update one item at a time (good function if you need just to update details for a couple of items). If you have any trouble using the update your stock function please let us know and we can activate that particular function.
- **Email** – email your stock list to us on [info@foundit.co.nz](mailto:info@foundit.co.nz). Files in .txt or .csv format are preferred.

Whatever way you sent the information, regular stock updates are vital to help ensure that the information on Foundit is up to date and accurate.

# IVECO

Iveco has been with Foundit since 2003, and is one of the largest truck dealer networks in New Zealand, with 13 major service dealers, supported by 6 parts dealers, based strategically around both north and south islands. To find the closest Iveco Trucks dealer call 0800 for IVECO (367 48326).

## **John Irvine, National Parts Manager**

John Irvine was appointed as National Parts Manager for IVECO Trucks in April 2012. He is thrilled to be with IVECO and along with his fantastic team, has refocused and restructured areas of the team to ensure IVECO provides the platform to drive excellence in areas of their parts department. These changes are necessary to ensure they provide levels of support, communication and delivery to their customers.

John has been in the industry for 30+ years. He has a strong background in commercial automotive engineering including service management which provides a strong link to a service and technical point of view. He has been in similar roles with Domtrac, Leespower, Cummins and for those who can remember back that far, one of the original staff to set up South Pacific Trucks. He has run his own business importing heavy commercial equipment and parts which provides him with a strong understanding of challenges you face running your own businesses.

## **Foundit Customer Profiles**

Each Newsletter we will feature some of the businesses, such as IVECO who use Foundit. If you would like us to profile your business, please let Belinda know.
